AKRYL I STANDARDFORMAT

www.cosign.nu

AKRYL LYFTER DITT BUDSKAP

CoSign har tagit fram ett antal akrylskyltar i standardformat med förborrade hål för skyltfästen och distanser. Cosign s.k. fixings.

Storlekarna är anpassade efter de vanligaste skyltformaten för att kunna kombineras med andra skyltar.

Formaten är rektangulära samt ovala. Skyltarna kan fås i klar akryl med polerad kant eller matt akryl med matt kant. Skyltarna finns i tjocklekarna 5 eller 10mm.

De har förborrade hål för skyltfästen (går även att fås utan hålning). Hålbilden matchar varandra mellan storlekarna.

AKRYL STANDARDSTORLEKAR / REKTANGULÄRA/ KVADRATISKA

Om akrylskivan ska passa till våra flaggfästen, side grips eller hängfästen så ange detta vid beställning så får du/ni leverans utan hålning. Samma pris gäller.

KLAR AKRYL 5mm

exkl. skyltfästen

Passar till

- 13 = skyltfäste Ø 13mm
- 18 = skyltfäste Ø 18mm
- 30 = skyltfäste Ø 30mm

Mått	Artikel.nr:
105 x 148mm (A6)	Ac5s-105148-13
148 x 148mm	Ac5s-148148-13

TIDLÖS ELEGANS

Under de senaste 10 åren har Cosign blivit den ledande tillverkaren av distanser & skyltfästen s.k. fixings i Benelux. Våra designers valde att skapa en snygg och modern design, i högkvalitativt rostfritt stål (AISI 303 och 304) samt anodiserad aluminium.

UPPHÄNGNINGSSYSTEM

www.cosign.nu

LÄTTANVÄNT

Cosign har utvecklat ett antal upphängningssystem som garanterar en enkel, kostnadseffektiv och säker upphängning av skyltar, belysningsystem och andra applikationer.

Alla system har en inbyggd låsningsmekanism som griper vadjern automatiskt. För att släppa, tryck bara på kopplingsknappen och vadjern är fri att flyttas fram och tillbaka för att uppnå önskad längd.

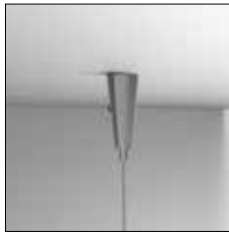

Våra upphängningslösningar passar för alla typer av tak: konventionella tak, hängande tak, tak med metallplattor eller högt i tak med synliga konstruktionsstöd.

FACILITÉ D'UTILISATION

Cosign a développé une série de systèmes de suspension qui garantissent un montage simple, bon marché et sécurisé des panneaux signalétiques, systèmes d'éclairage, supports de câbles et autres applications.

Tous les systèmes sont équipés d'un dispositif de verrouillage intégré qui serre automatiquement les câbles. Pour les libérer, il suffit d'appuyer sur le bouton de verrouillage, ce qui permet de déplacer les câbles d'avant en arrière pour obtenir la longueur souhaitée.

Notre gamme de systèmes de suspension offre une solution pour tous les types de plafonds : plafond conventionnel, plafond suspendu, plafond couvert de cassettes métalliques ou encore haut plafond ouvert avec supports structurels visibles.
